

MISSION, VISION & VALUES

MISSION:

Our mission is to provide an environmentally responsible solution to the traffic challenges, based on sustainability, technological innovation, energy efficiency, safety and comfort.

VISION:

Be reference for innovation in urban mobility and sustainable transport system, by implementing the suburb monorail and promoting its integration with other modes of passenger transport, using high technology to shape a better future for humanity and the environment.

VALUES:

Respect for people and the environment / Excellence / Pragmatism / Passion / Innovation.

IMS POLICY

The satisfaction of our stakeholders and Customer, our business and product sustainability, as well as the constant improvement of our Integrated Management System's performance, in terms of quality, environment, safety and health, is a constant pursuit of SkyRail Bahia. The organization is committed and guides its decisions based on:

1. Establish and maintain an Integrated Management System, permanently seeking the continuous improvement of our performance;
2. Develop our activities focusing on new energy technologies, innovation, quality, sustainability and social awareness, in order to improve urban mobility, population welfare and pollution prevention;
3. Meet the needs and expectations of our Customer and stakeholders, keeping them as a priority of our business.
4. Strengthen the education of our employees by promoting adequate training for the proper execution of our operations, as well as the development of environmental and social awareness, seeking to minimize the impacts of our activities on the communities and on the environment;
5. Maintain partnership with suppliers and service providers aligned with Skyrail's guidelines;
6. Continuously meet the legal requirements applicable to our business as well as any other applicable requirements.
7. Ensuring occupational safety and health, as well as environmental protection in operations performed by our team or on behalf of Skyrail, providing a safe and healthy working environment and expanding our care for the monorail's public and surrounding communities.
